## ...INVITATION FROM AHOBAN RADIO LISTENER... BRINGS AN AMAZING RESPONSE!

Dear Friend,

When one visits West Bengal, India and Bangladesh for the first time, they marvel that the Gospel could ever be effectively communicated due to the vast diversity in their belief systems. The primary religion of West Bengal is Hinduism; and the primary religion of Bangladesh is Islam.

For over four decades, **Radio AHOBAN** has been a great resource to sow the seed of the Gospel into the hearts of its listeners. Who could have dreamed what the results would be... hundreds of thousands have heard the Gospel, thousands have enrolled in correspondence courses and an unknown number have been converted to Jesus Christ. Many churches have been planted – some are led by pastors who were converted to Christ as they listened to our broadcast.

As a result of an invitation from a long-time listener – who urged us to send a medical team to his region – the **BENGALI MEDICAL OUTREACH** was formed. Greg Constable, VP of Recruitment, for Global Outreach Mission and a 17 member medical team recently returned from Bangladesh. The team was comprised of five doctors, five nurses, an optical equipment operator, two optical volunteers, two children's ministry leaders and a general volunteer. The team effort was outstanding - the professional and non-medical volunteers who sacrificed time away from their careers to contribute their valuable services – was priceless. Truly they became the helping hands of Jesus - they traveled each day by riverboat to remote island locations to conduct medical clinics and share the Gospel.

### **The purpose of their mission was:**

1) to glorify God while serving the medical needs of the people of the Sundarbans; 2) to enhance the ministry of AHOBAN; 3) to assist in ground-breaking efforts to establish faith communities in the Sundarbans.

### **Their mission was accomplished – and much more:**

Reconnected to Radio AHOBAN listeners • encouraged new listeners to tune in to the broadcast • treated more than 200 patients every day • issued eyeglasses after examinations • conducted children's ministries • provided medical and chiropractic treatment.

One local pastor stated, **"I have never seen a team come with such a comprehensive approach to meeting the needs of our people."**

**THE MESSAGE IS THE HEART OF RADIO AHOBAN** – as it is aired five days per week, preceding the morning news.

More than one thousand inquirers are currently enrolled in correspondence courses which are offered by Radio AHOBAN.

AHOBAN Radio Ministry also produces annually, a musical CD of BENGALI WORSHIP SONGS which are written and sung by Bengali musicians. These recordings are vital, much-appreciated and a source of great encouragement to national pastors and churches.

Several dozen churches are in various stages of growth and development as a result of people finding Christ. National pastors need to be nurtured into leadership positions in the churches. ***This is not an easy task, and these pastors need our prayers and help!***

As I write – I would urge you to pray for the ministry of Radio AHOBAN. Please help in whatever way the Lord leads you to meet the ongoing costs of radio time and correspondence courses. **The need to meet current expenses is \$32,400.** Your gift, whether small or large, is urgently needed.

Sincerely in His Matchless Name,

Brian Albrecht, President  
GLOBAL OUTREACH MISSION

P.S. Remember – each weekday preceding the morning news, the Gospel of Jesus Christ goes forth to all the Bengali-speaking world. We praise God for this radio ministry which has indeed led us into an even greater ministry as a result of this endeavor.
